8. Application Area:

AISI/SUS 304L stainless's mechanical properties are similar with **AISI/SUS 304**,because of low C%,**304L** has better performance in anti-corrosion after welding,and **304L** has better performance under no heat treatment condition.is mainly used in coal,oil industries' openair equipments which has a high request of resistance for grain boundary attack.

TJC Stainless is the most competitive manufacture and supplier of **304L** stainless steel in thickness 0.3mm-80mm and width up to 2200mm.Other special requests about specification,please contact us.
